

Acquisition Management Services

Acquisition Management Capability Areas

Acquisition Management

- Project Management /Execution
- Requirements Analysis and Implementation
- Resource Planning and Allocation
- Acquisition Strategy
- Tracking and Progress Reporting

Engineering

- Armament Avionics
- Safety C & A
- Systems Software

Logistics

- Performance-Based Logistics
- Integrated Logistics Support
- Logistics Support Analysis
- Operations Research Analysis
- Sustainment

Financial Management

- Earned Value Management
- Cost Estimating
- Financial Analysis
- Cost/Schedule Control Systems

Test and Evaluation

- Design and Planning
- Execution / Monitoring
- Analysis and Reporting

Contracting

- Acquisition Strategy
- Contract Initiation/ Closeout
- Contract Negotiation and Writing

Training Systems Management

- Aircrew / Maintenance Trainers
- Computer-based Training

Government Furnished Property

- Studies and Analysis
- GFP Tracking, Coordination, Organization and Administration
- Financial Reconciliation

Security Management

- Operations Acquisition
- Communications Personnel
- Information Special Access

Experience. Knowledge. Integrity. Trust AMTI.

With a solid history of program success, Advanced Management Technology Inc. (AMTI) has supported the United States Air Force Materiel Command’s Product and Air Logistics Centers and the Air Force Research Laboratory for nearly two decades. Focusing on key elements like cost, schedule, performance and risk management, AMTI acquisition professionals are integral contributors to the success of the programs they support.

Complete Range of Acquisition Management Capabilities

AMTI performs a wide range of program management, engineering and functional support activities needed to develop, acquire, produce and sustain Air Force weapon systems. Knowledgeable and experienced, AMTI professionals currently support a number of programs, to include the:

- Global Hawk Unmanned Aerial Vehicle (UAV)
- C-5 Galaxy
- Large Aircraft Infrared Countermeasures (LAIRCM)
- F-22 Raptor Stealthfighter
- C-17 Globemaster Heavy Lift Cargo Jet

Other AFMC programs successfully supported include the A-10, B-1, B-2, B-52, C-17, C-32, C-40, C-130, CSAR-X, F-117, KC-135, KC-X, and T-6. AMTI has supported the Aeronautical System Center’s Engineering and Financial Management Home Offices, and the Electronic Systems Center’s M3 office.

In addition, AMTI supports the Air Force Fleet Viability Board by assessing aging USAF aircraft fleets with skilled engineering, logistics and administrative professionals.

AMTI – A Tetra Tech Company

A wholly-owned subsidiary of Tetra Tech, AMTI is the information technology arm of a \$1.8 billion engineering services firm with 8,500 employees in 275 locations worldwide. With credentials grounded in over 15 years of support to our nation’s aviation, scientific, and homeland and national defense communities, AMTI provides information technology solutions, program management support services and technical consulting services.

We Can Make a Difference for Your Program

To learn more about our acquisition management capabilities, contact Fred Whican, General Manager of AMTI’s Air Force Programs Office, at 937.427.5497 or via email at Fred.Whican@AMTI.com.
